Take this example of Boston's Orpheum Theatre. We've laid out some history behind the building along with our own insider tips!

One of the oldest theaters in the country, built in 1852!

1 Hamilton Pl  
Boston, MA 02108, US

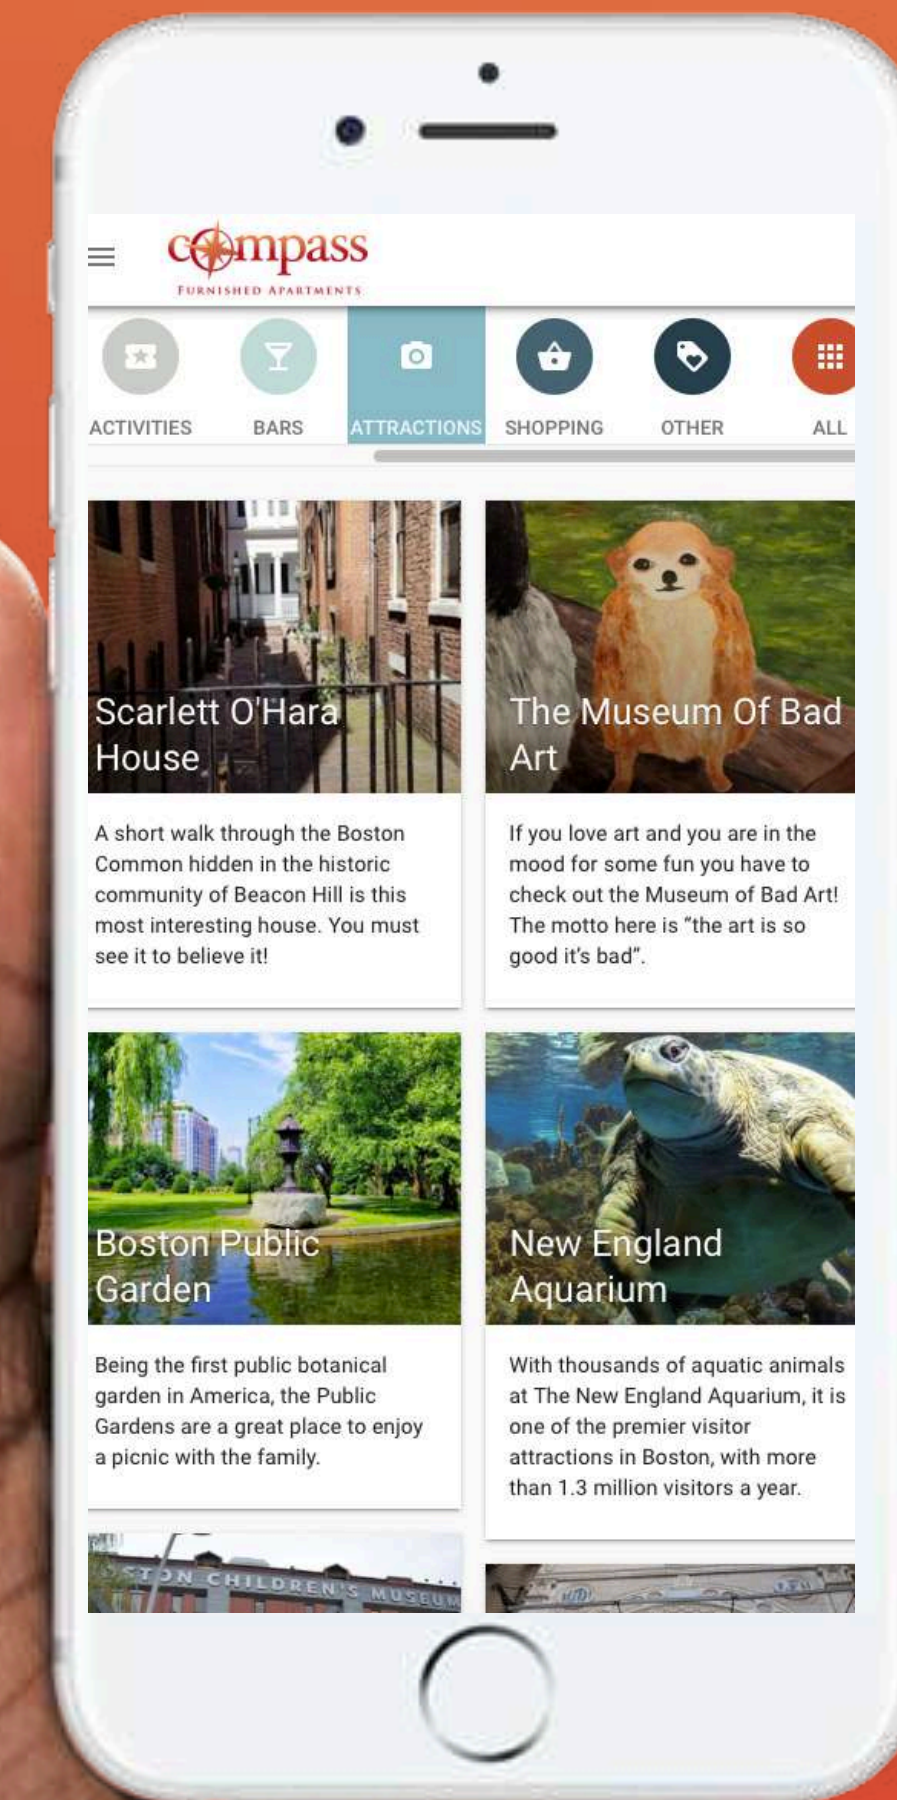

Hours of operation

Even if you are up high in the nose bleeds you can still hear the music like you are up front while enjoying all the character the building has to offer.

We usually stop at [SideBar](#) right next door before or after a show.

***Insider Tip: it seems small, but just walk in all the way to the back and the room opens up where you can find pool tables and other arcade games.***
